

JP-U 64-9883 (Japanese Utility Model Application No. 104813/1987 (laid-open No. 009883/1989))

Page 6, line 20 to Page 7, line 8

Also, in the above example, the rear doors 3, 6 of the packing boxes 2 and 5 are double doors that open and close around the vertical axis, but they may be double doors that open and close around a horizontal axis. In particular, when the rear door of the packing box 5 is a door 12 that opens and closes around a horizontal axis 11 provided at the rear end of the floor surface 5a as shown in FIG. 2, the door 12 can be opened and the tip thereof can be anchored to the ground G, allowing the door 12 to be used as a track for the loading forklift 13.
